Ans : _____

End of Paper

EXAM PAPER 2017 (P3)

SCHOOL :TAO NAN

SUBJECT : MATHEMATICS

TERM : CA2

1)$37   2)9   3)689   4)$2   5)12 oranges

6)$2650 - 550 = 2100$

$2100 \div 2 = 1050$

Alisha has 1050 stickers.

7)$510 - 285 = 225$

$225 \div 5 = 45$

Each charity received 4 cakes.

8)$8 + 42 = 50$

$50 + 2 = 52$

$52 + 10 = 62$

Their total age in 2 years' time is 62 years.

9)$108 \div 9 = 12$

12 x 7 = 84

There were 84 green and yellow balloons.

10) Assume all were vanilla

$2 x 55 = 110

130 – 110 = 20

3 – 2 = 1

20 ÷ 1 = 20 (chocolate)

55 – 20 = 35 (vanilla)

Mr. Dessert sold 35 vanilla ice-cream.
