Mid-Year Examination 2021
Mathematics
Paper 1
Primary 6

Name: _____ Register No._____

Class: Pr 6 -_____

Date: **10 May 2021** Parent's Signature: _____

Total Time for Booklets A and B : 1 hour

Booklet A

Instructions to Pupils:

1. Do not open this booklet until you are told to do so.
2. Follow all instructions carefully.
3. Shade your answers in the Optical Answer Sheet (OAS) provided.
4. You are **not** allowed to use a calculator.
5. Answer all questions.

Section	Maximum Mark	Marks Obtained
Paper 1 (Booklet A)	20	

Questions 1 to 10 carry 1 mark each. Questions 11 to 15 carry 2 marks each.
For each question, four options are given. One of them is the correct answer.
Make your choice (1, 2, 3 or 4). Shade the oval (1, 2, 3 or 4) on the Optical Answer Sheet.

All diagrams in this paper are not drawn to scale unless stated otherwise.

(20 marks)

---

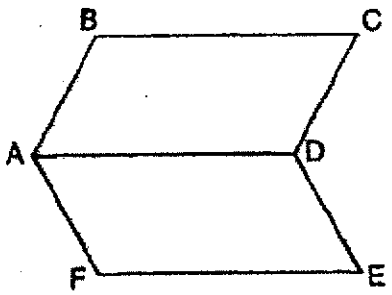
1. There are 17 985 people at a concert.
Round this number to the nearest hundred.

(1) 17 000
(2) 17 900
(3) 17 990
(4) 18 000

2. Mdm Ling bought 2 litres of orange juice. She poured all the juice into smaller bottles of $\frac{1}{4}\ell$ each. How many of such bottles will there be in the end?

(1) 6
(2) 2
(3) 8
(4) 4

3. In the figure, ABCD and ADEF are parallelograms. Which of the following pairs of lines are parallel?



(1) BC and DE
(2) BC and FE
(3) AB and AD
(4) AB and AF

4. Express $\frac{7}{9}$ as a decimal. Round your answer to 2 decimal places.

(1) 0.77
(2) 0.78
(3) 1.28
(4) 1.29

5. The table below shows the number of library books borrowed by some pupils on a particular day.

Number of books borrowed	0	1	2	3	4
Number of pupils	6	8	10	12	4

How many pupils borrowed **at least 2** library books?

(1) 10
(2) 16
(3) 22
(4) 26

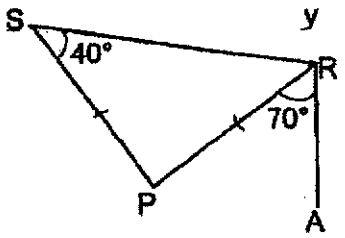
6. Simplify the algebraic equation $5w + 6 - 2w + 11 - 9 - w$.

(1) $2w + 8$
(2) $3w + 2$
(3) $7w + 8$
(4) $8w + 26$

7. There are 28 blue marbles and 52 red marbles in a box. What is the ratio of the number of blue to red marbles in the box?

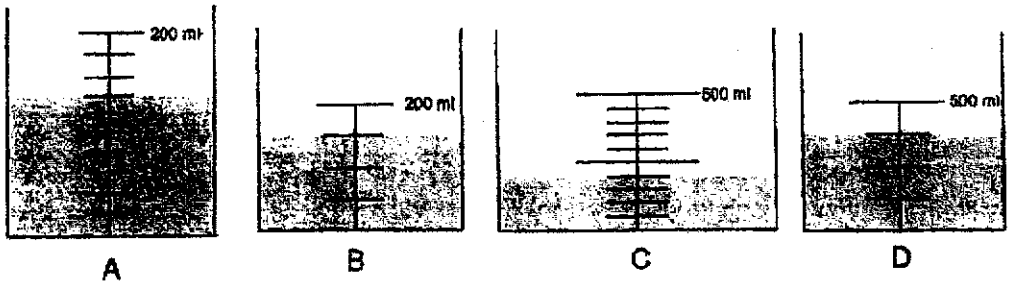
(1) 2 : 3
(2) 4 : 13
(3) 7 : 26
(4) 7 : 13

8. In the figure below, PRS is an isosceles triangle and PR = PS. ∠PSR = 40° and ∠PRA = 70°. Find ∠y.



(1) 150°
(2) 260°
(3) 290°
(4) 320°

9. Four containers with some water are shown below. Which container has the least amount of water?



(1) A
(2) B
(3) C
(4) D

10. Arrange the following fractions from the largest to the smallest.

$$\frac{2}{11}, \frac{1}{5}, \frac{2}{9}$$

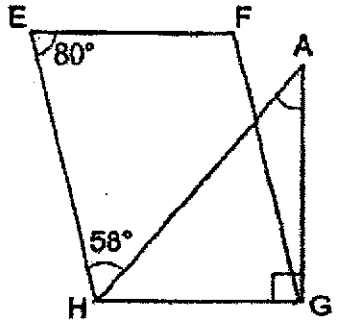
(1) $\frac{1}{5}, \frac{2}{9}, \frac{2}{11}$

(2) $\frac{2}{9}, \frac{1}{5}, \frac{2}{11}$

(3) $\frac{2}{11}, \frac{1}{5}, \frac{2}{9}$

(4) $\frac{2}{11}, \frac{2}{9}, \frac{1}{5}$

11. The figure below is made up of a parallelogram EFGH and a right-angled triangle AGH. Find $\angle GAH$.



(1) 42°

(2) 48°

(3) 58°

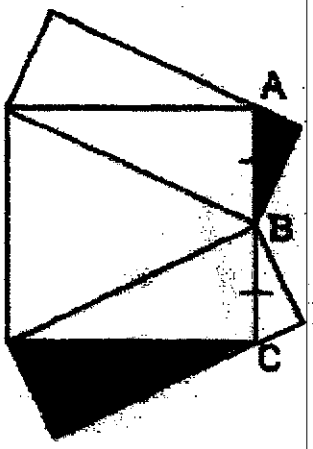
(4) 80°

12. At a post office, the overseas postage rates for bulk parcels are shown in the table below. Mr Tan posted a parcel which weighs 5.8 kg to Malaysia and another parcel which weighs 7.2 kg to Hong Kong. How much did he pay for sending both parcels?

Destinations (Zone)	Postal Rate	
	First 5 kg	Additional kg or part thereof
Zone A: Malaysia	$16	$3
Zone B: Brunei, Hong Kong, Indonesia, Philippines, Taiwan and Thailand	$30	$6

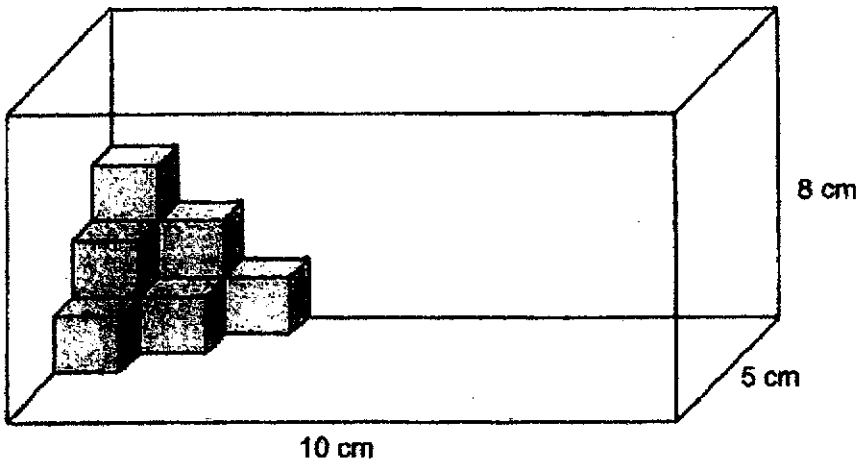
(1) $46
(2) $54
(3) $59
(4) $64

13. The figure is made up of a square and 2 identical rectangles placed overlapping the square. The length AB is equal to the length BC. The area of the shaded parts is 64 cm^2. What is the area of the unshaded parts?



(1) 128 cm^2
(2) 256 cm^2
(3) 320 cm^2
(4) 384 cm^2

14. An open rectangular box contains some 1-cm cubes as shown below. How many more 1-cm cubes are needed to fill the box completely?



(1) 390
(2) 391
(3) 394
(4) 400

15. Liling made some puffs. $\frac{2}{3}$ of them were sardine puffs and the rest were curry puffs. After giving away 35 sardine puffs and $\frac{1}{2}$ of the curry puffs, she had $\frac{1}{4}$ of the puffs left. How many puffs had Liling left?

(1) 5
(2) 15
(3) 45
(4) 60

Total Time for Booklets A and B : 1 hour

PAPER 1
(BOOKLET B)

Instructions to Pupils:

1. Do not open this booklet until you are told to do so.
2. Follow all instructions carefully.
3. You are **not** allowed to use a calculator.
4. Write your answers in the booklet.
5. Answer all questions.

Section	Maximum Mark	Marks Obtained
Paper 1 (Booklet B)	**25**	

* This booklet consists of **9** pages (including this cover page)

Questions **16** to **20** carry 1 mark each. Write your answers in the spaces provided. For questions which require units, give your answers in the units stated.

Do not write in this space

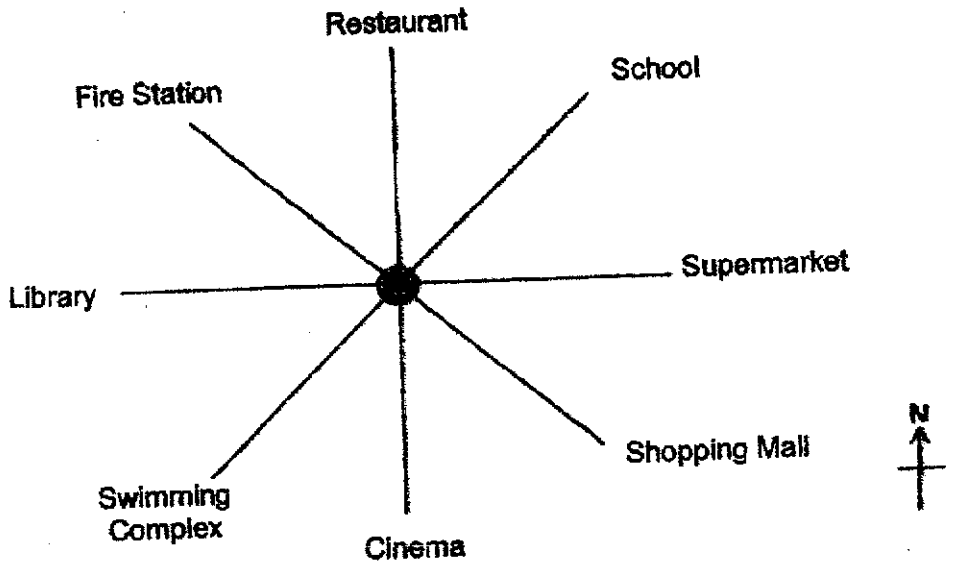
All diagrams in this paper are not drawn to scale unless stated otherwise.

(5 marks)

16. Mrs Ramesh bought a packet of sweets for $2.95. How much did she pay for 40 packets?

Ans: $_____

17. Study the diagram below carefully.



Dorothy is facing the fire station. Which building will she face when she turns 135° in the clockwise direction?

Ans: _____

(Go on to the next page)

18. Find the value of $2\frac{3}{4} - 1\frac{2}{5}$. Give your answer as a mixed number in the simplest form.

Do not write in this space

Ans: _____

19. There were 160 pupils in a drama club last year. This year, there are 120 pupils in the same club. What is the percentage decrease in the number of pupils who join the drama club this year?

Ans: _____ %

20. When Sunny reached a cinema at 6.50 p.m., he was already 10 minutes late for the movie. The movie ended at 9.00 p.m. . How long was the duration of the movie?

Ans: _____ h

(Go on to the next page)

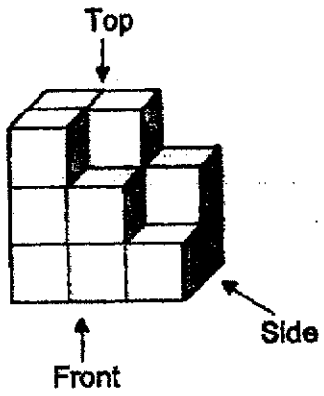
Questions **21** to **30** carry 2 marks each. Show your workings clearly in the space provided for each question and write your answers in the spaces provided. For questions which require units, give your answers in the units stated.

Do not write in this space

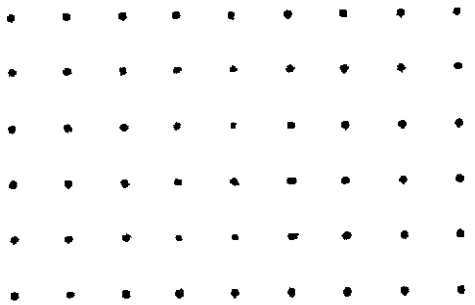
All diagrams in this paper are not drawn to scale unless stated otherwise.

(20 marks)

21. The solid below is made up of 14 cubes.
In the grid below, draw the side view of the solid.



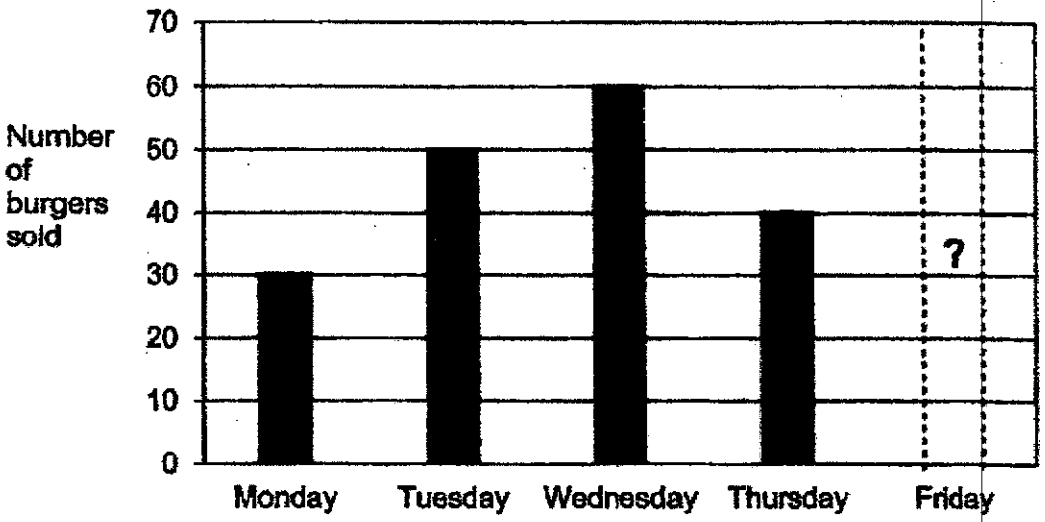
Side View



(Go on to the next page)

22. The graph below shows the number of burgers sold from Monday to Thursday. The number of burgers sold on Friday is equal to the average number of burgers sold from Monday to Thursday. What is the number of burgers sold on Friday?

Do not write in this space



Ans:_____

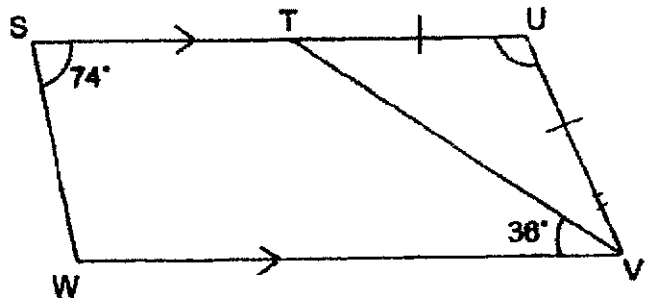
23. Kelly bought a dress for \$50 and 3 blouses at \$w each. If the total cost of the dress and 3 blouses was \$110, find the value of w.

Ans:_____

(Go on to the next page)

24. In the diagram below, STVW is a trapezium and SU is parallel to WV. TU = UV. Find ∠TUV.

Do not write in this space



Ans: _____

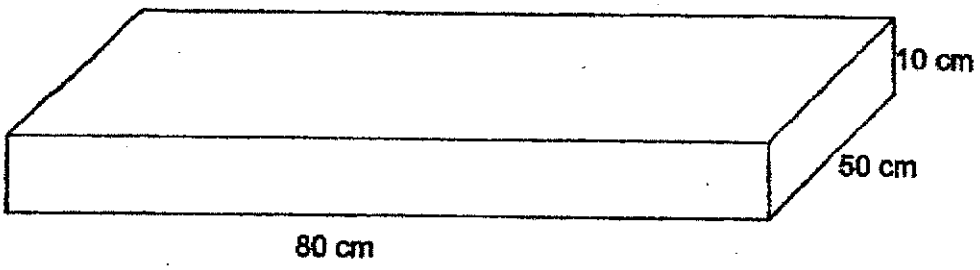
25. Mrs Koh bought 90 tarts and repacked them into boxes of 8. How many more tarts would she need to buy to fill up the last box of 8 tarts?

Ans: _____

(Go on to the next page)

26. Jack poured out two bottles filled with 16 litres of water each into an empty tank as shown below. What was the height of the water level in the tank after he had poured out all the water from the bottles?

Do not write in this space



Ans: _____ cm

27. The ratio of the number of stickers Carol had to the number of stickers Siti had was 3 : 4. After Carol's brother had given her 20 more stickers, Carol had 62 stickers. How many stickers did Siti have?

Ans: _____

(Go on to the next page)

28. Starting on a Monday, Ken saved some money every day. He increased his savings by 20 cents each day until Thursday. He saved a total of $6 by the end of the four days. How much did he save on Monday?

Do not write in this space

Ans: $_____

29. There were 5 bowls containing the same number of grapes each at first. Then, 4 grapes were eaten from each bowl. In the end, the total number of grapes left in the 5 bowls was the same as the total number of grapes in the 3 bowls at first. What was the number of grapes in each bowl at first?

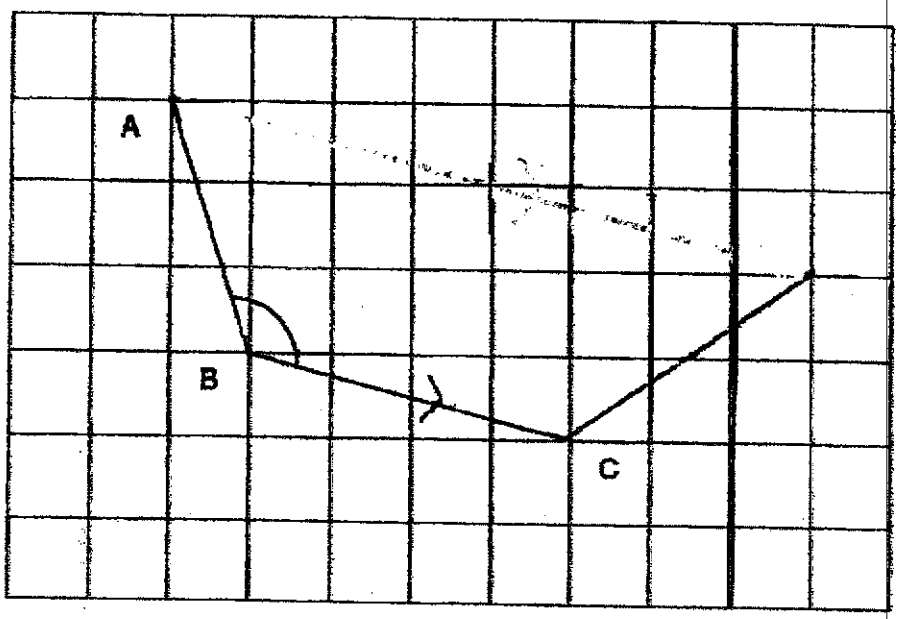
Ans: _____

(Go on to the next page)

30. In the square grid below, AB and BC are straight lines.

(a) Measure and write down the size ABC.

(b) AB and BC form two sides of a trapezium ABCD. AD is parallel to BC and is twice the length of BC.
Complete the drawing of trapezium ABCD. [1]



Ans: (a) _____° [1]

PAPER 2

Instructions to Pupils:

1. Do not open this booklet until you are told to do so.
2. Follow all instructions carefully.
3. **Show your workings clearly** as marks are awarded for correct working.
4. Write your answers in this booklet.
5. You are allowed to use a calculator.
6. Answer all questions.

Questions	Maximum Mark	Marks Obtained
Q 1 to 5	10	
Q 6 to 17	45	

Section	Maximum Mark	Marks Obtained
Paper 1	45	
Paper 2	55	
Total	**100**	

* This booklet consists of **16** pages (including this cover page)

Questions 1 to 5 carry 2 marks each. Show your working clearly in the space provided for each question and write your answers in the spaces provided. For questions which require units, give your answers in the units stated.

All diagrams in this paper are not drawn to scale unless stated otherwise.

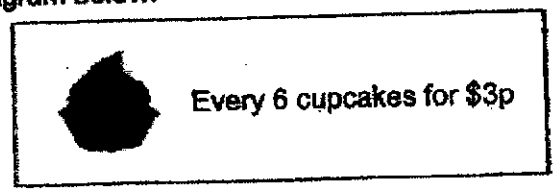
(10 marks)

Do not write in this space

1. John bought 15 identical plates. Siti bought 11 such plates. She also bought 5 cups for $40. Both John and Siti spent the same amount of money. What was the cost of 1 plate?

Ans: $_____

2. Study the diagram below.



Mrs Devi bought 24 cupcakes. She gave the cashier $50. How much change would she receive? Give your answer in terms of p.

Ans: $_____

(Go on to the next page)

Do not write in this space

3. In the figure below, the rectangle ABCD is made up of two parts Y and W. The length of AB is twice of the length of BC. Part Y is formed by a semicircle and the line AD. The perimeter of Y is 90 cm. The perimeter of the shaded part, W, is 230 cm. Find the perimeter of the rectangle ABCD.

Ans: _____ cm

4. Mark and Ali collected some newspapers for recycling. The ratio of the mass of the newspapers Mark collected to the mass of the newspapers Ali collected was 1 : 3. After their neighbours gave them 42 kg of newspapers each, their ratio became 2 : 3. How many kilograms of newspapers did both of them collect altogether in the end?

Ans: _____ kg

(Go on to the next page)

5. Ken can paint a room in 8 hours. Raja can paint the same room in 10 hours.

Do not write in this space

Each of the statements is either true, false or not possible to tell from the information given. For each statement, put a tick (√) to indicate your answer.

Statement	True	False	Not Possible To Tell
Both of them will take less than 4 hours to finish painting the room together.			
With a third person to paint the same room together, the 3 of them could finish painting the room in less than 4 hours.			

(Go on to the next page)

For Questions **6** to **17**, show your working clearly in the space provided for each question and write your answers in the spaces provided. The number of marks available is shown in brackets [ ] at the end of each question or part-question. For questions which require units, give your answers in the units stated.

All diagrams in this paper are not drawn to scale unless stated otherwise.

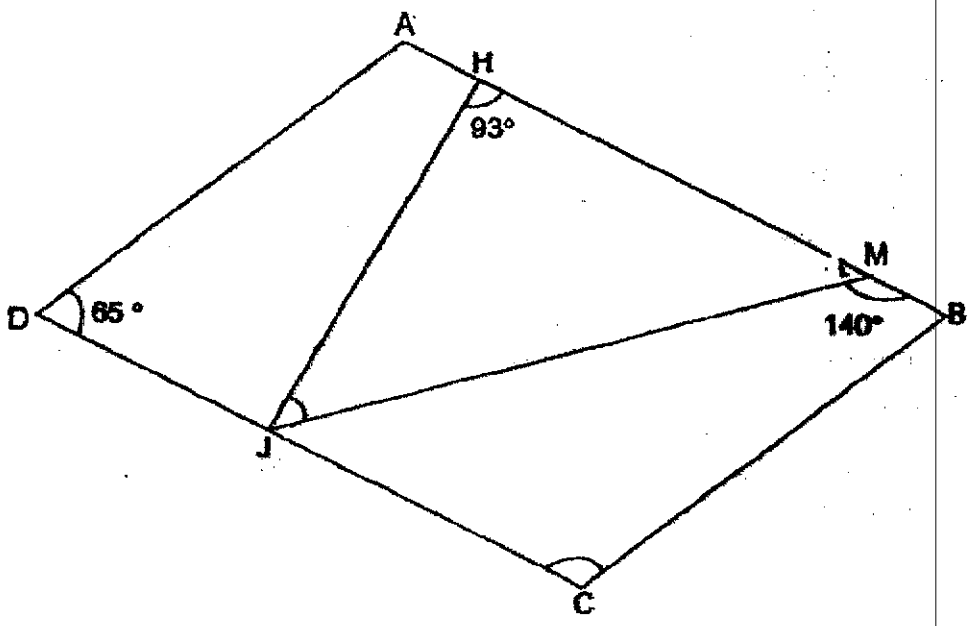
(45 marks)

Do not write in this space

6. The figure below is not drawn to scale. ABCD is a parallelogram. HMJ is a triangle. $\angle ADJ = 65°$, $\angle MHJ = 93°$ and $\angle BMJ = 140°$.

(a) Find $\angle BCD$.

(b) Find $\angle HJM$.



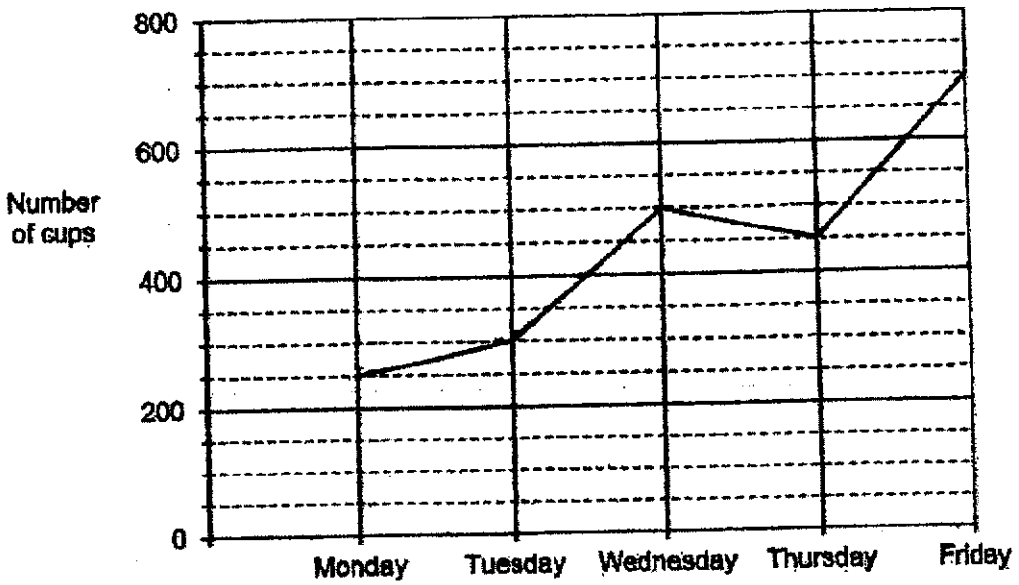
Ans: (a) _____ [1]

(b) _____ [2]

(Go on to the next page)

7. The graph below shows the number of cups of bubble tea sold in a shop from Monday to Friday.

Do not write in this space



(a) How many more cups of bubble tea were sold on Wednesday than on Tuesday?

(b) What is the percentage increase in the number of cups of bubble tea sold on Friday compared to Monday?

Ans: (a) _____ [1]

(b) _____ [2]

(Go on to the next page)

8. The table below shows the cost of each can of paint.

Paint	Red	Blue	Yellow
Cost	$9	$35	$32

Mr Tan bought some cans of red, blue and yellow paint. The ratio of the number of cans of red paint to the number of cans of blue paint to the number of cans of yellow paint was 7 : 5 : 6. He paid $2580 for all the cans of paint. How many cans of red paint did he buy?

Do not write in this space

Ans: _____ [3]

(Go on to the next page)

9. Minah had a collection of toys. $\frac{3}{5}$ of them were marbles and the rest were dolls and car models. The number of dolls was $\frac{1}{4}$ of the number of car models. There were 156 more marbles than the dolls. How many toys did she have in her collection?

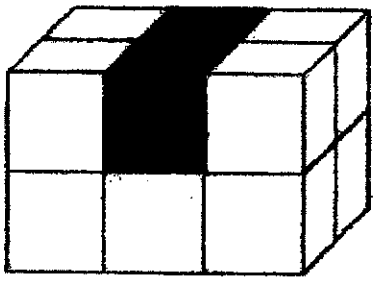
Do not write in this space

Ans: _____ [3]

(Go on to the next page)

10. The figure shows a cuboid made up of some identical unit cubes. 2 shaded cubes are removed and the remaining solid is painted red. What is the total number of painted faces?

Do not write in this space



Ans: _____ [3]

(Go on to the next page)

11. Malar had a rectangular piece of paper. She folded it along the dotted line as shown in Figure 1. Then, she folded the paper again along the dotted line as shown in Figure 2. Finally, the folded paper is as shown in Figure 3. Given that $\angle EFG = 72^\circ$ and $\angle JEH = 43^\circ$, find

(a) $\angle FEH$

(b) $\angle EJH$

Do not write in this space

Figure 1

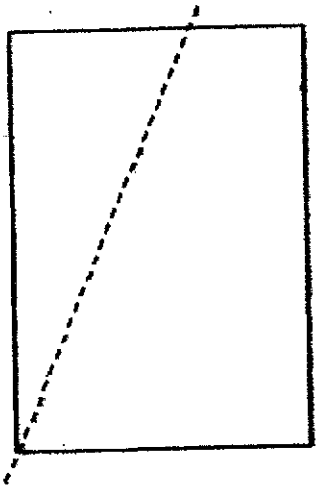


Figure 2

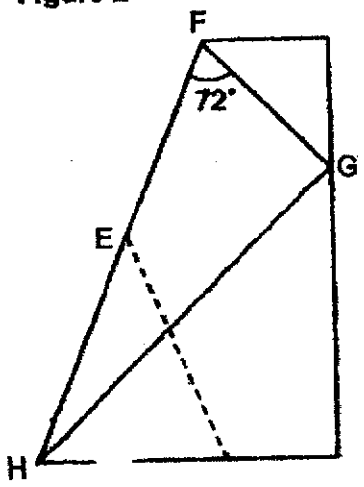

Figure 3

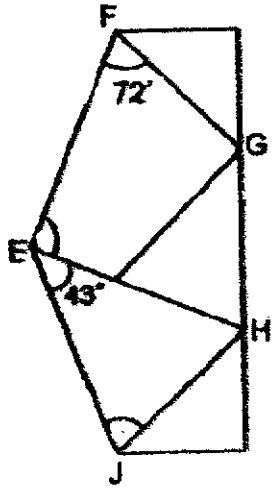


(Go on to the next page)

11. (to be continued here)

Do not write in this space

Ans: (a) _____ [2]

(b) _____ [2]

(Go on to the next page)

12. At first, Mr Menon had 380 more books than magazines in his bookshop. He then sold $\frac{1}{4}$ of the books and $\frac{3}{5}$ of the magazines. The number of books left was 600 more than the number of magazines left. What was the total number of books and magazines Mr Menon had at first?

Do not write in this space

Ans: _____ [4]

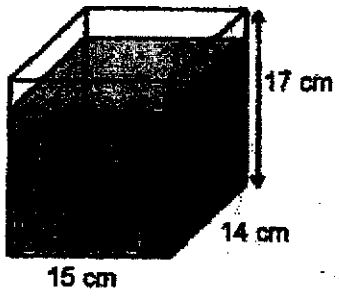
(Go on to the next page)

13. Tank X was $\frac{4}{5}$ filled with water. Tank Y was empty. All the water from Tank X was poured into Tank Y. After that, Tank Y needed another 1944 cm^3 of water to fill to its brim.

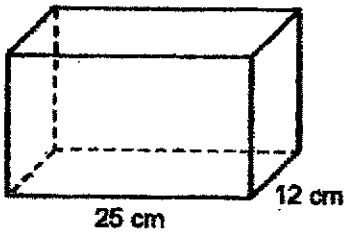
Do not write in this space

(a) What was the volume of water in Tank X at first?

(b) What was the height of Tank Y?



Tank X



Tank Y

Ans: (a) _____ [2]

(b) _____ [2]

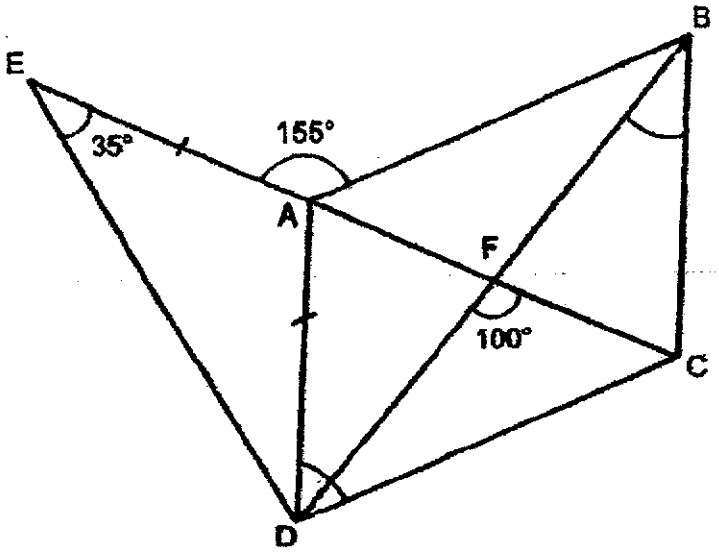
(Go on to the next page)

14. In the figure, ABCD is a parallelogram. AD = AE. BD and EAC are straight lines. ∠DFC = 100°, ∠EAB = 155° and ∠ AED = 35°.

Do not write in this space

(a) Find ∠ADC

(b) Find ∠CBF



Ans: (a) _____ [2]

(b) _____ [2]

(Go on to the next page)

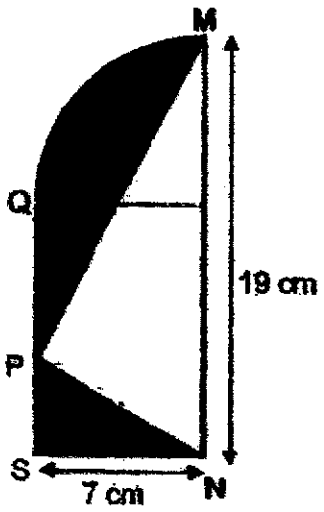
15. In the figure, QM is the arc of a quarter circle. MNP is a triangle and MN is perpendicular to SN. SN = 7 cm and MN = 19 cm.

Do not write in this space

(a) Find the total area of the shaded parts.

(b) The perimeter of the unshaded triangle is 43.5 cm. Find the perimeter of the shaded parts.

(Take $\pi = \frac{22}{7}$)



Ans: (a) _____ [3]

(b) _____ [2]

(Go on to the next page)

16. A test pattern for TV screens made up of black and white dots is shown below. The dots will appear at intervals of 1 second.

Do not write in this space

Time	Dots on TV screen	Number of black dots	Number of white dots	Total number of dots
1st sec		3	0	3
2nd sec		3	4	7
3rd sec		7	5	12
4th sec		12	4	16
5th sec		16	5	21
6th sec		21	4	25

(a) How many black dots are there at the 8th second mark?

(b) What is the total number of black and white dots at the 30th second mark?

(c) At which second mark will ~~the total number~~ difference between of the black and white dots be 188?

(Go on to the next page)

16. (to be continued here)

Do not write in this space

Ans: (a) _____ [1]

(b) _____ [2]

(c) _____ [2]

(Go on to the next page)

17. Mrs Park had 420 more pens than notebooks at her shop. After selling 75% of the pens and some notebooks, she had 20% of the total number of pens and notebooks left. There were 21 notebooks left. What was the total number of pens and notebooks she had at first?

Do not write in this space

Ans: _____ [4]

End of paper
Have you checked your work?
