**Section E**  
**Comprehension (20 marks)**

**A.**

**Read the passage carefully and answer the questions that follow.**

During the school holidays, I went with my father to the zoo to learn more about his job. I decided to put on my favourite blue T-shirt and pants. Right from the start, we were busy. First, a lady in a pink dress came and reported that one of the lions was injured. To get there quickly, we took the van.

On the way, we passed a long building where workers prepared meals for some of the animals. I saw a person in white with a bowl full of vegetables and another person in a yellow jacket with a bucket full of small fish. Next, we went past the bear enclosure, then the cheetahs. The cheetahs could run very fast and I was glad that I was not in the enclosure with them!

Finally, we arrived at the lion's enclosure. My father used his binoculars to search for the lion. He managed to spot the limping lion. Immediately, he used his walkie-talkie to call for the vet.

My father told me that if it was a serious wound, we would have to take the lion to the vet's office. The vet would measure the lion's wound with his measuring tape before treating it.

I had a very enjoyable time working with my father in the zoo that day.

**Read the passage carefully and answer the questions that follow. Write your answers in complete sentences.**

Meng was nine years old. His father was a member of the fire brigade in their small country town. When a fire was reported by the public, a siren could be heard throughout the whole town. The firemen would put on their yellow uniforms and jump onto the fire engine. Meng loved to hear stories about how his father helped to put out the flames.

One hot day, Meng decided to start a fire. He wanted to see the brigade put it out. Armed with a box of matches, he rode his bicycle into the forest near his house and set fire to some twigs. It took only a few seconds for the fire to spread.

Soon, the heat and flames frightened Meng. He cycled out of the forest as fast as he could. Not long after, two fire engines came. The firemen managed to put out the fire in fifteen minutes, using their powerful water hoses.

Safe at home, Meng promised his father that he would never do such a foolish thing again.
